Adrian Frąckowiak
React / Frontend Developer

I'm looking for a job as a Frontend Developer. Head technologies I used are ReactJS, TypeScript, JavaScript, Next.js, etc.
I'm fascinated by web pages and web apps. Every day I learn new skills about that. My hobby is sport, especially skateboard, snowboard, and basketball.

PROJECTS

Hogsmeade Station + API
https://github.com/adrianfrackowiak/Hogsmeade-Station
https://hogsmeade-station.vercel.app/

Hogsmeade Station is the app for Harry Potter fans. You can choose your favorite wizard or spell, discover your Hogwart's House with Sorting Hat Ceremony and track your books reading progress.

Stack: ReactJS, TypeScript, Axios, Firebase Auth, Firebase Database, Rest API

adrianfrackowiak.pl - Portfolio and blog
https://github.com/adrianfrackowiak/adrianfrackowiak
https://www.adrianfrackowiak.pl/

It is my personal website where you can see my portfolio and read something about me in my blog section.

Stack: ReactJS, TypeScript, Gatsby, GraphQL, TailwindCSS

wraptown.pl - Business website (car wrapping)
https://wraptown.pl/

WrapTown is the business website for a car wrapping company with a few subpages and a cool design.

Stack: ReactJS, TypeScript, Gatsby, TailwindCSS

Pomi - pomodoro timer + todo
https://github.com/adrianfrackowiak/Pomi---Pomodoro-Timer
https://pomi-timer.netlify.app/

Pomi is the app that used a customizable pomodoro timer. It can help you to stay focus and be more productive. It's your choice how long you want to study.

Stack: ReactJS, Gatsby, GraphQL, SCSS
